

Flatware Collection

Flatware Features

As excellence demands no compromise, all Chef & Sommelier items are made exclusively from the finest materials.

There are eight unique designs in Chef & Sommelier flatware combining beauty and perfect handling. Each pattern is made from high quality 18/10 stainless steel and is also available by special order in brushed or silver-plate. Our flatware collections grace the most prestigious tables worldwide.

Chef & Sommelier flatware is manufactured from 18/10 stainless steel and designed to withstand intensive usage and frequent industrial washes. Adhering to strict technical specifications and subjecting our products to stringent controls at every stage of the manufacturing process ensures reliable, long-lasting merchandise. To ensure its resistance, the thickness of our flatware is subject to careful scrutiny.

All of our flatware is guaranteed for 10 years. This guarantee covers manufacturing and material defects. It becomes void if usage instructions are not followed.*

All of our cutlery lines are produced in 18/10 stainless steel and silver plate. In order to meet the strictest requirements, Chef & Sommelier knife blades are more resistant than required by European standards (with hardness of 600 Vickers rather than the recommended 500 Vickers). You can be sure that you are offering your customers the best, while enjoying the benefits of guaranteed durability and quality.

*Flatware is not guaranteed against damage caused by wear and tear, accidents or incorrect usage (excessive use of detergent, use of unsuitable detergents, etc.)
